## OBJECTIVE

---

Full Stack Developer seeking opportunities to grow professionally and apply my knowledge. I focus on Java for backend and TypeScript for frontend with experience in Spring Boot and Nextjs frameworks.

## TECHNICAL SKILLS

---

**Programming Languages:** Java, Javascript, Python

**Frameworks:** Spring Boot, Nextjs

**Databases:** PostgreSQL, MySQL, SQLite, MongoDB

**Libraries & Tools:** Git, Docker, Node, React, Svelte, Tailwind

**Markup:** Html, Css, Markdown

## PROJECTS

---

### Convenience Store

[github](#)

*Fullstack Web Application*

*Spring Boot, Next.js, Docker, SQL*

- Backend developed with Spring Boot, integrating an SQL database.
- Implementation of CRUD (Create, Read, Update, Delete) operations for user interaction with the database, ensuring efficiency and security in access.
- Robust authentication using Spring Security, ensuring user data protection.
- Automated testing with JUnit and MockMvc to ensure application quality and stability.
- Full containerization with Docker, simplifying the deployment process and increasing application portability.
- Continuous integration and continuous delivery (CI/CD) set up with GitHub Actions, with Docker images hosted on Docker Hub, ensuring an agile and efficient development workflow.
- Frontend developed with Next.js, TypeScript, and Tailwind, providing a dynamic and responsive user interface.

## EXPERIENCE

---

### Soldier

Mar 2022 – Jan 2023

*Brazilian Army*

*Pindamonhangaba, SP*

- Responsible for armed guard duty, ensuring the security and integrity of military facilities.
- Developed teamwork skills, effectively collaborating with fellow soldiers to accomplish missions and daily tasks.
- Managed the entrance gate, including strict control of people entering and exiting, ensuring security and access control.

## EDUCATION

---

### UNITAU

*Analysis and Systems Development*

Taubaté, SP, Brazil

Jan 2023 – Dec 2025

## CERTIFICATIONS

---

- [English proficiency certificate from EF SET](#)
- [JavaScript and TypeScript from basic to advanced course](#)
- [Data Structures and Algorithms course](#)
- [Excel \[40 Hours\]](#)
